PROVIDING CONSTRUCTION SERVICES TO THE OIL & GAS INDUSTRY

Tanner Services, LLC and its Management Team have been providing general oilfield construction services to the Gulf Coast for over 40 years. Our years of experience in general oilfield construction enable us to execute a project plan in a timely and cost effective manner.

We pride ourselves on providing only the most qualified personnel, which in turn, allows us to provide superior services in order to ensure our client's needs are fully met. We invite you to discuss with us your business needs for a large variety of oil and gas services, including: construction, timber, solids control, poly pipe, pit lining, production/maintenance, and hydro excavation services.

Tanner Services greatly appreciates the support of our clients and we look forward to adding your company to our customer list.

AT TANNER SERVICES, SAFETY IS OUR PRIORITY.

It is the policy of Tanner Services to provide to all of our employees, as well as our clients, a safe and healthy environment. We are committed to job safety analysis, and weekly and monthly safety meetings, including reviews with top management participation.

Our success depends not only on the service we perform and the products we produce for our customers, but also, and just as importantly, the safe manner in which each job is performed. Our in-house safety directors are knowledgeable in OSHA training as well as experienced in the medical field.
